DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Objections

2. Claims 13 and 33-35 are objected to because of the following informalities: claims 33-35 should be identified as (Previously presented) not (New). In claim 13 there appears to be a word missing from line 5 at "the first material a good".

Appropriate correction is required.

3. The amendment filed 7/25/05 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: the amendment to the specification is new matter. If applicant supplied a printed publication dated prior to the earliest filing date of the instant application showing the definition of "PVAC" to be what is added to the specification this objection would be overcome.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

4. Claim 17 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it

Art Unit: 1772

pertains, or with which it is most nearly connected, to make and/or use the invention.

The meaning of the term "PVAC" has not been properly set forth in the disclosure and this renders the scope of the claim unclear.

5. Claims 32 and 33 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There is no original disclosure directed to "at least one of said segments ... groove" as set forth in claim 32. Applicant's arguments have been considered but are not deemed persuasive. Depending on the size of the individual segments one or more of the segments could be cut and still have a segment greater than one half the length of the groove. There is no requirement that at least one segment be not more than one half the length of the groove.

Allowable Subject Matter

6. Claims 1, 2, 4-9, 11-16, 18-31, 34 and 35 are allowed.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1772

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
